Product / Technology	Applications and Unique Features	Regulatory Status
Electrode Inserter system	<ul> <li>Pneumatic insertion system for Utah Electrode Array and Utah Slanted Electrode Array for cortical and peripheral nerve applications</li> </ul>	510(k)

Auxiliary Support	Description	
Engineering Expertise	<ul> <li>Product development using FDA Design Control Processes</li> <li>Microfabrication of silicon- and polymer-based devices</li> <li>Custom electrode array architectures for neural recording and stimulation</li> <li>Analog and digital circuit design</li> <li>Embedded systems</li> <li>Custom ASIC development</li> <li>Hermetic packaging</li> <li>Wireless data transmission</li> <li>Custom software development for experiment control, data acquisition, analysis and display</li> <li>Custom neural recording headstages and adapters</li> </ul>	
Regulatory Assistance	<ul> <li>Rights of reference to leverage existing data from cleared and pre-clinical devices towards new IDE submissions</li> <li>Support and expertise in IDE submissions</li> <li>Support and expertise in IRB submissions</li> </ul>	
Data Repository	<ul> <li>Centralized repository for data sharing</li> <li>Physiological data</li> <li>Analysis code</li> </ul>	

## **Additional Support**

Blackrock will provide technical support assistance towards the successful execution of any joint projects under the BRAIN program. Blackrock may also provide software and hardware engineering support as required for the project.

THESE DOCUMENTS ARE THE PROPERTY OF BLACKROCK MICROSYSTEMS AND SHALL NOT BE REPRODUCED, DISTRIBUTED, DISCLOSED OR USED FOR MANUFACTURE OR SALE OF APPARATUS WITHOUT THE EXPRESSED WRITTEN CONSENT OF BLACKROCK MICROSYSTEMS.
